¹ All frames ordered before 6/1/22 were made with a 74 degree headtube angle.
*BB height has two listings depending on which tire size is used
**Frame weights can vary (+) or (-) .3 due to the differences in tubes and paint used
**Frame weights were determined by taking an average of multiple frame weights
***Micro Mini frame is designed to be used with 20” wheels
****OS20 measurements were taken using Tioga OS1.85 front, OS1.60 rear with Answer Dagger fork
*****Expert XL is designed for 406mm wheels. 451mm wheels can be used with brake mount adapters

Custom frame colors are an additional \$75.00
Custom frame geometry ranges from \$50.00-\$200.00

Ssquared Bicycles offers a one-year limited warranty to original purchaser on all products from the original purchase date with original receipt
